

Non-Destructive Entry for Police Personnel

*****MCOLES 302 funding registered*****

Why use Non-Destructive Entry (NDE)?

NDE offers an alternate option to a forced entry. Techniques such as lock picking can allow patrol officers, supervisors, command officers, detectives, surveillance/narcotic officers and special response/SWAT teams a covert and non-destructive entry method. NDE can be appropriate and helpful for welfare checks, community caretaker functions, suspicious circumstances, search warrants, a tactical option, or even a home lockout.

Forced entry is the *most expensive* and *least efficient* method of entry, and is not always necessary. With forced entry, there are significant costs of repair or replacement of a smashed door, broken lock and split door frame, all of which costs several hundred dollars to well over \$1,000, along with waiting for board up or repair crews, litigation and loss of goodwill.

2-DAY BASIC COURSE: This 2-day course will introduce participants to the core basics of non-destructive entry, including lock-picking techniques, bumping, and bypass methods over a 2-day course with more than 200 locks. Participants will practice on residential and commercial locks, padlocks, deadbolts, knob locks, lever handled locks, and mortise cylinders. Professional lock picking set/other tools provided. **September 12-13, 2016.** Cost is \$475.00.
